

Dave Marquette, Council Member

My St Peter Story:

I wound up at St. Peter after leaving Redemption after finding the newly called Pastor was not what we had hoped.

What I bring to St Peter:

This is my second stint on Council at St. Peter, as before I bring a willingness to listen and a desire to seek the solution that provides the church and congregation with the best long term results.

Career:

I spent nineteen years at Denso Manufacturing as a Senior Team leader/Project Manager in the Facilities Department. My duties included construction management and the oversight of all outside contractors at Denso. Following my retirement from Denso, I operated my own laser engraving, industrial marking, and promotional products business for eleven years.

Hobby/Interest:

I am a lifelong woodworker and also enjoy photography. I don't hunt any more but do enjoy target shooting.

Fun fact:

I like to go both up and down, I am a licensed pilot, and a master scuba diver.
